#### About M State.

Minnesota State Community and Technical College serves more than 8,000

campuses in Detroit Lakes, Fergus Falls, Moorhead, Wadena and through eCampus.

#### M State has been

partnering with high schools across the state of Minnesota since 1985 to offer college credit in the high school. Students benefit by earning college credits, saving money and experiencing college rigor and expectations without having to leave the high school classroom.

The first step to success is understanding college expectations.
